Road, Muzaffarnagar (U.P.)

Business Profile

In **Ganpati Engineering Works**, we focus on meeting the needs of our customers for durable, affordable, and versatile Fertilizers Plants in Medium to large-scale industries.

Ganpati Engineering Works was established to achieve a revolution in the field of machinery by improving the quality of products. The promoters of the company set up their engineering facility at Roorkee Road, Muzaffarnagar (U.P.). Our designing, manufacturing, fabrication, and consultation facilities are in Muzaffarnagar (Uttar Pradesh). We have a big workshop with the latest technological equipment and sufficient highly qualified manpower. We are designing, manufacturing fabricating and rendering consultation for Coal Gasifier Plant, Conveyor Belt, Conveyor Rollers, Fertilizer Plants, Zinc Sulphate Plant, N.P.K., etc. on a turnkey basis and for various other mechanical machinery. We are well capable for running the fertilizer plant on a contract basis with minimum maintenance by highly qualified manpower.

The Enterprises is promoted by Mr Pramod Kumar, the Proprietor who has completed 25 years for development, manufacturing, application and consultation of various industries. He has made an outstanding contribution in the field of Fertilizer Plant through emphasis and self-reliance.

INFRASTRUCTURE

The factory was established at Opp Krishan Place, Sarwat, Roorkee Road, Muzaffarnagar (U.P.) India. We have a well-equipped tool room with lathes machines of various sizes, Shapers, Milling machines, Drill machines and Bend saws, etc. Our Fabrication shop has state-of-the-art equipment like EOT Crane, PUG cutting Machines, Sheet Banding Machines, and rectifiers.

MANUFACTURES

- Fertilizer Plant
- Gasifier plant
- Conveyor belt and parts
- Zink Sulphate plant

List of Installed plants by us

S.No.	Company Name	City
1	Shakti Fertilizer Corp.	Coimbatore (T.N.)
